

SUSTAINABLE PARTNERSHIPS FOR A GREENER FUTURE

UMI is committed to partnering with manufacturers that prioritize eco-friendly practices, ethical sourcing, and responsible production methods. We carefully select brands that invest in sustainable innovations to create durable surfaces that contribute to healthier living spaces while reducing environmental impact.

Vicostone is committed to sustainability by prioritizing environmentally responsible production and continuously improving processes to meet higher environmental standards. Its facilities operate with a focus on preserving ecological balance and supporting healthier communities. Vicostone carries several environmental product certifications and is eligible for up to 12 LEED credits. Vicostone also offers several designs that include at least 20% recycled content.
